---------------------- Admin Profile -----------------------------

Note:
 When I visit https://lms.andhrauniversity-sde.com/ (React frontend) on a fresh system or browser (first-time visit), the login does not work.

However, when I manually run the login API (`https://lmsapi.andhrauniversity-sde.com/api/auth/Login`) using a browser/console/Postman, the frontend starts working.

When clicking the top-left profile icon, it logs out instead of redirecting to the dashboard. Please fix this to redirect to the dashboard page.

Dashboard:
 Currently working fine.

Departments:
 Currently working fine.

Courseware:
 Courseware structure meets expectations but requires many changes to match our workflow. Admin is currently unable to upload content — please enable this functionality.

Users:
 User status is not updating.

Professors:
 Professors can be created, but updates and deletions are not working.

Students:
 Students can be created successfully, but updating and deleting student information is not working.

Student Progress:
 Currently working fine.

Library:
 Currently working fine.

Live Classes:
 Currently working fine.

Assignments:
 Admin is unable to delete assignments.

Question Bank:
 Admin is unable to delete questions.

Notice Board:
 Currently working fine.

Payments:
 Requires some modifications. In the fee list, add a "Search by ID" option — currently, it only searches by name.

Reports:
 Currently working fine.

Support:
 "Mark as Resolved" and "Close Ticket" functionalities are not working.

Task Board:
 Currently working fine. Please add a search option.

Meetings:
 Currently working fine.

Mail:
 Currently working fine.

---------------------- Instructor Profile ----------------------------

Dashboard:
 Currently working fine.

Meetings:
 If an admin assigns a meeting to a professor, please show a notification indicator.

Students:
 Currently working fine.

Library:
 Currently working fine.

Courseware:
 Video viewing is not working — it shows a 404 error page.

Assignment:
 Assignments can be created, but cannot be updated.

Grade Assignments:
 (Not mentioned — please clarify if there is any issue here.)

Mark Attendance:
 Please add a search option.

Live Classes:
 Currently working fine.

Examinations:
 Currently working fine.

Question Bank:
 MCQ works fine. However, selecting "Theory" still shows MCQ upload options — this should be corrected.

Manage Test:
 Exam creation is working. Please add an Excel upload option.

Grade Test:
 Students are unable to submit exams, so grading is not possible.

Task Board:
 Currently working fine. Please add a search option.

Profile:
 Currently working fine.

Mail:
 Currently working fine.

--------------------- Student Profile -------------------------------

Dashboard:
 Currently working fine.

Courseware:
 Currently working fine.

Assignment:
 Assignments are displayed, but downloading files results in a 404 error. Submitting assignments results in a "submission failed" message.

Question Bank:
 Currently working fine.

Examinations:
 Currently working fine.

Test:
 Students cannot view assigned questions. It shows "Load questions" but nothing is displayed.

Test Results:
 Students cannot submit exams to professors, so results are not visible.

Attendance:
 Currently working fine.

Calendar:
 Currently working fine.

Live Classes:
 Please open the class link in a new tab when the "Join Class" button is clicked.

Fee Status:
 Fee details are not displaying correctly.

Support:
 Currently working fine.

Profile:
 Currently working fine.

Please ensure all three roles (Admin, Instructor, Student) have full Add / Update / Delete access.

 This will help us test and report bugs effectively.
